

Guide for choosing automatic tissue processors

Histo-Line tissue processors help you simultaneously increase quality and throughput with built-in quality, reliability and tissue protection.

So, choose the right instrument for your workload to maximize efficiency and protect critical patient tissue.

Peculiarity	Histo-Pro 300	Histo-Pro 200	ATP1000	STP250-V	STP250
Capacities of sample	~300	~200	~150	~100	~100
Program	20	20	6	10	10
Underfloor	X	X			
Bench			X	X	X
Vacuum	X	X		X	
Monitor touch screen	X	X	X	X	X
Agitation mode	X	X		X	X
Microprocessor control	X	X	X	X	X
Tank carbon filter	X	X			
Active Carbon filter			X	X	X
Programmable	X	X	X	X	X
Alarm system	X	X	X	X	X
Reagent level control	X	X		X	X

Our range of processing tools help you manage your daily routine to complete workloads, establish shorter response times, and improve laboratory efficiency and quality.

Technical support

Histo-Line offers complete technical assistance remotely (by phone or by video call platforms) or on site to quickly find any solution tailored to you.

Our help to Pathological Anatomy technicians is constant to offer them the best service.
Do you have doubts about a product? Do you need further information? Do you need specialist assistance on a particular process or protocol?
